

Accepted Manuscript

Synthesis and characterization of the electrically conductive polymeric composite for lightning strike protection of aircraft structures

Andrzej Katunin, Katarzyna Krukiewicz, Roman Turczyn, Przemysław Sul, Andrzej Łasica, Marcin Bilewicz

PII: S0263-8223(16)31476-3

DOI: <http://dx.doi.org/10.1016/j.compstruct.2016.10.028>

Reference: COST 7854

To appear in: *Composite Structures*

Received Date: 8 August 2016

Accepted Date: 11 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Synthesis and characterization of the electrically conductive polymeric composite for lightning strike protection of aircraft structures
