

Accepted Manuscript

Thermal interaction between tunnel ground heat exchangers and borehole heat exchangers

Asal Bidarmaghz, Guillermo A. Narsilio, Patrik Buhmann,
Christian Moormann, Bernhard Westrich

PII: S2352-3808(16)30077-6
DOI: <http://dx.doi.org/10.1016/j.gete.2017.05.001>
Reference: GETE 55

To appear in: *Geomechanics for Energy and the Environment*

Received date : 29 September 2016
Revised date : 5 May 2017
Accepted date : 5 May 2017

Please cite this article as: Bidarmaghz A., et al. Thermal interaction between tunnel ground heat exchangers and borehole heat exchangers. *Geomechanics for Energy and the Environment* (2017), <http://dx.doi.org/10.1016/j.gete.2017.05.001>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Article type: paper (max 5000 words with one illustration per 500 words).
2 Date text revised: May 2017.
3 Number of words in your main text and tables: 5,000 (references excluded)
4 Number of figures: 13
