This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Characterization of Axial and Oblique Defects in Pipes  
Using Fundamental Torsional Guided Modes

Young-Wann Kim<sup>a,\*\*</sup> and Kyung-Jo Park<sup>a,\*</sup>

<sup>a</sup> Department of Mechanical Design Engineering, Chonnam National University  
50 Daehak-ro, Yosu-city, Jeollanam-do 59626, Republic of Korea

Total number of pages: 18 pages (including cover page)

Total number of tables: 1 table

Total number of figures: 9 figures
