Accepted Manuscript

Assessment, sources and predictability of the swell wave power arriving to Chile

D.G. Mediavilla, D. Figueroa

PII: S0960-1481(17)30195-7

DOI: 10.1016/j.renene.2017.03.014

Reference: RENE 8607

To appear in: Renewable Energy

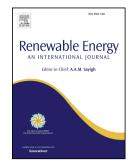

Received Date: 22 June 2016

Revised Date: 2 March 2017

Accepted Date: 7 March 2017

Please cite this article as: Mediavilla DG, Figueroa D, Assessment, sources and predictability of the swell wave power arriving to Chile, *Renewable Energy* (2017), doi: 10.1016/j.renene.2017.03.014.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
