Simulation of solar cooling system based on variable effect LiBr-water absorption chiller

Z.Y. Xu, R.Z. Wang

PII: S0960-1481(17)30574-8

DOI: [10.1016/j.renene.2017.06.069](https://doi.org/10.1016/j.renene.2017.06.069)

Reference: RENE 8936

To appear in: *Renewable Energy*

Received Date: 7 April 2016

Revised Date: 27 April 2017

Accepted Date: 18 June 2017

Please cite this article as: Xu ZY, Wang RZ, Simulation of solar cooling system based on variable effect LiBr-water absorption chiller, *Renewable Energy* (2017), doi: 10.1016/j.renene.2017.06.069.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Simulation of solar cooling system based on variable effect

LiBr-water absorption chiller
