

## Accepted Manuscript

Title: Impact of grout thermal conductivity on the long-term efficiency of the ground-source heat pump system

Authors: Tomislav Kurevija, Marija Macenić, Staša Borović

PII: S2210-6707(16)30435-8

DOI: <http://dx.doi.org/doi:10.1016/j.scs.2017.02.009>

Reference: SCS 588

To appear in:

Received date: 23-9-2016

Revised date: 12-1-2017

Accepted date: 15-2-2017

Please cite this article as: Kurevija, Tomislav., Macenić, Marija., & Borović, Staša., Impact of grout thermal conductivity on the long-term efficiency of the ground-source heat pump system. *Sustainable Cities and Society* <http://dx.doi.org/10.1016/j.scs.2017.02.009>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Impact of grout thermal conductivity on the long-term efficiency of the ground-source heat pump system**
