Please cite this article as: Sheldrick RC, Maye MP, Carter AS, Age at First Identification of Autism Spectrum Disorder: An Analysis of Two US Surveys, *Journal of the American Academy of Child & Adolescent Psychiatry* (2017), doi: 10.1016/j.jaac.2017.01.012.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Age at First Identification of Autism Spectrum Disorder: An Analysis of Two US Surveys

RH: Age of ASD Identification

R. Christopher Sheldrick, PhD; Melissa P. Maye, MA; Alice S. Carter, PhD

This article is discussed in an editorial by Dr. Angela Reiersen on page xx.

Clinical guidance is available at the end of this article.

Accepted January 27, 2017

Dr. Sheldrick is with Tufts Medical Center, Boston. Ms. Maye and Dr. Carter are with University of Massachusetts, Boston.

This research was supported in part by a National Institute of Mental Health (NIMH) grant to the University of Massachusetts Boston and Tufts University (#R01MH104400) and an Autism Speaks Dennis Weatherstone Predoctoral Fellowship to Melissa P. Maye, MA at the University of Massachusetts Boston (#9117).

Dr. Sheldrick served as the statistical expert for this research.

The authors would like to acknowledge Victoria E. Sanchez, BA, of the University of Massachusetts Boston, for her contribution in preparing this manuscript for publication.

Disclosure: Dr. Sheldrick has received funding from the Eunice Kennedy Shriver National Institute of Child Health and Human Development, the WT Grant Foundation, and the JPB Foundation. Dr. Carter has received funding from the Health Resources and Services Administration and the Eunice Kennedy Shriver National Institute of Child Health and Human Development. Ms. Maye reports no biomedical financial interests or potential conflicts of interest.
