This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Child Abuse, Neural Structure, and Adolescent Psychopathology: A Longitudinal Study

RH = Child Abuse and Neural Structure

Daniel S. Busso, EdD; Katie A. McLaughlin, PhD; Stephanie Brueck, LCSW; Matthew Peverill, BA; Andrea L. Gold, PhD; Margaret A. Sheridan, PhD

Supplemental material cited in this article is available online.

Accepted January 27, 2017

Dr. Busso is with Harvard University, Cambridge, MA. Dr. McLaughlin and Mr. Peverill are with University of Washington, Seattle. Ms. Brueck is with Boston College, Boston. Dr. Gold is with National Institute of Mental Health Intramural Research Program, Bethesda, MD. Dr. Sheridan is with University of North Carolina, Chapel Hill.

This research was funded by the National Institutes of Mental Health (K01-MH092626 to McLaughlin and K01-MH092555 to Sheridan) and the Doris Duke Fellowship for the Promotion of Child Well-Being (Busso). In addition, this research was supported in part by the Intramural Research Program of the National Institutes of Health.

Disclosure: Dr. McLaughlin has received a Child Health Research Award from the Charles. H. Hood Foundation and an Early Career Research Fellowship from the Jacobs Foundation. Drs. Busso, Gold, and Sheridan, Ms. Brueck, and Mr. Peverill report no biomedical financial interests or potential conflicts of interest.
