Supplemental material cited in this article is available online.

Accepted June 28, 2017

Dr. Patalay is with the University of Liverpool, UK, and Drs. Patalay and Moulton and Professors Goodman and Ploubidis are with the Centre for Longitudinal Studies (CLS), University College London (UCL) Institute of Education, London.

The authors thank the Economic and Social Research Council for funding the Cross-Cohort Research Programme (Grant ref: ES/M008584/1). The funders of the study had no role in study design, data collection, data analysis, data interpretation, or writing of this report.

Drs. Patalay and Ploubidis served as the statistical experts for this research.

The authors are grateful for the co-operation of the Millennium Cohort Study families who voluntarily participate in the study. They would also like to thank a large number of stakeholders from academic, policy-maker, and funder communities and colleagues at CLS involved in data collection and management.

Disclosure: Drs. Patalay and Moulton and Profs. Goodman and Ploubidis report no biomedical financial interests or potential conflicts of interests.
