This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Cost Offset Associated With Early Start Denver Model for Children With Autism

RH = Cost Offset Associated with ESDM

Zuleyha Cidav, PhD, Jeff Munson, PhD, Annette Estes, PhD, Geraldine Dawson, PhD, Sally Rogers, PhD, David Mandell, ScD

This article is discussed in an editorial by Dr. Douglas L. Leslie on page xx.

Accepted June 28, 2017

Drs. Cidav and Mandell are with the Center for Mental Health Policy and Services Research, University of Pennsylvania Perelman School of Medicine and Leonard Davis Institute of Health Economics, University of Pennsylvania, Philadelphia. Drs. Munson and Estes are with University of Washington, Seattle. Dr. Dawson is with Duke Center for Autism and Brain Development, Duke University, Durham, NC. Dr. Rogers is with the MIND Institute, University of California, Davis.

The clinical trial was supported by National Institute of Mental Health grant U54MH066399 (Dawson, PI), which was registered at www.clinicaltrials.gov with identifier NCT00090415.

Additional grants supported the long-term follow-up study (Estes, PI) funded by the National Institute of Child Health and Human Development (U19HD34565, P50HD066782, R01HD-55741), and the National Institute of Mental Health (U54MH066399). Autism Speaks also provided financial support.

Dr. Cidav conceptualized the study and its design, conducted the analyses, and drafted the initial manuscript. Dr. Munson assisted with the analyses, especially the coding of different service types, and assisted with interpretation of data. Dr. Estes oversaw original data collection for the follow-up study, and assisted with acquisition and interpretation of data. Dr. Dawson designed and oversaw the original randomized controlled trial (RCT) and its data collection, and assisted
