This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Reduced Default Mode Connectivity in Adolescents With Conduct Disorder

RH = Default Mode Network in Conduct Disorder

M. John Broulidakis, MSc; Graeme Fairchild, PhD; Kate Sully, PhD; Thomas Blumensath, PhD; Angela Darekar, PhD; and Edmund J. S. Sonuga-Barke, PhD

Supplemental material cited in this article is available online.

Accepted June 22, 2016

Mr. Broulidakis and Drs. Fairchild, Sully, and Sonuga-Barke are with the Developmental Brain-Behavior Laboratory (DBBL) at the University of Southampton, UK. Dr. Sonuga-Barke is also with Gent University, Belgium. Dr. Blumensath is with the Institute of Sound and Vibration Research (ISVR) at the University of Southampton, UK. Dr. Darekar is with University Hospital Southampton National Health Service Foundation Trust, Southampton, UK.

This work was partially funded by awards to Edmund Sonuga-Barke and Graeme Fairchild from the University of Southampton that funded PhD studentships for M. John Broulidakis and Kate Sully, respectively.

The authors thank the participants and their families for taking part in the study, and the radiographers involved in MRI scanning.

Disclosure: Dr. Fairchild has received grants from the Medical Research Council (MRC), the European Commission, the National Council for Science and Technology, Mexico, and the charity Kids Company. Dr.

Blumensath has received grant or research support from the Engineering and Physical Sciences Research Council (EPSRC) and Innovate UK, the UK's innovations agency. He is a named inventor on patent application WO2014162300 A1. Dr. Sonuga-Barke has received grant support from the MRC, the Economic and Social Research Council (ESRC), the Wellcome Trust, the Solent NHS Trust, the European Commission, the Child Health Research Foundation New Zealand, the National Institute for Health Research (NIHR), the Nuffield Foundation, Fonds Wetenschappelijk OnderzoekVlaanderen (FWO), and MQ:

Transforming Mental Health. He has received speaker fees, research funding, and conference support from, and has served as a consultant to Shire Pharma. He has received speaker fees from Janssen-Cilag. He has served as a consultant to Neurotech Solutions, Aarhus University, Copenhagen University, and Berhanderling, Skolerne, Copenhagen, KU Leuven. He has received book royalties from Oxford University Press and Jessica Kingsley. Drs. Sully and Darekar and Mr. Broulidakis report no biomedical financial interests or potential conflicts of interest.

Correspondence to Edmund J. S. Sonuga-Barke, PhD, Academic Unit of Psychology, Shackleton Building (B44), Highfield Campus, University of Southampton, Southampton, SO17 1BJ, UK; email: ejb3@soton.ac.uk.
