APOE moderates compensatory recruitment of neuronal resources during working memory processing in healthy older adults

Elisa Scheller, Jessica Peter, Lena V. Schumacher, Jacob Lahr, Irina Mader, Christoph P. Kaller, Stefan Klöppel

PII: S0197-4580(17)30136-7

DOI: [10.1016/j.neurobiolaging.2017.04.015](https://doi.org/10.1016/j.neurobiolaging.2017.04.015)

Reference: NBA 9910

To appear in: *Neurobiology of Aging*

Received Date: 1 December 2015

Revised Date: 17 March 2017

Accepted Date: 13 April 2017

Please cite this article as: Scheller, E., Peter, J., Schumacher, L.V., Lahr, J., Mader, I., Kaller, C.P., Klöppel, S., APOE moderates compensatory recruitment of neuronal resources during working memory processing in healthy older adults, *Neurobiology of Aging* (2017), doi: 10.1016/j.neurobiolaging.2017.04.015.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

APOE moderates compensatory recruitment of neuronal resources during working memory processing in healthy older adults
