Title: Marital status as a predictor of diurnal salivary cortisol levels and slopes in a community sample of healthy adults

Authors: Brian Chin, Michael L.M. Murphy, Denise Janicki-Deverts, Sheldon Cohen

PII: S0306-4530(16)30805-8
DOI: <http://dx.doi.org/doi:10.1016/j.psyneuen.2017.01.016>
Reference: PNEC 3513

To appear in:

Received date: 15-10-2016
Revised date: 15-1-2017
Accepted date: 16-1-2017

Please cite this article as: Chin, Brian, Murphy, Michael L.M., Janicki-Deverts, Denise, Cohen, Sheldon, Marital status as a predictor of diurnal salivary cortisol levels and slopes in a community sample of healthy adults. *Psychoneuroendocrinology* <http://dx.doi.org/10.1016/j.psyneuen.2017.01.016>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Marital status as a predictor of diurnal salivary cortisol levels and slopes in a community sample of
healthy adults**
