Funding: None. The authors report no external funding source for this project.

Conflicts of Interests: Dr. Georgiopoulos received a Circle of Care Grant from Vertex Pharmaceuticals for unrelated work. None of the other authors have conflicts of interest to disclose.

Abbreviations: CF – cystic fibrosis
CFTR – cystic fibrosis transmembrane regulator
FEV1 – forced expiratory volume in 1 second
APE – acute pulmonary exacerbation
CFRD – cystic fibrosis related diabetes
F508del – phenylalanine residue at position 508
CFF – Cystic Fibrosis Foundation
ECFS – European Cystic Fibrosis Society
CRP – C-reactive protein
BMI – body mass index in kg/m²
SSRI – selective serotonin reuptake inhibitor
CYP – cytochrome
TDM – therapeutic drug monitoring

Keywords: cystic fibrosis, CFTR modulators, depression, anxiety, lumacaftor-ivacaftor
