This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights:

- Online gamblers tend to gamble on a larger number of gambling types
- Online gamblers are more likely to play computer games
- Online gambling is not associated to tobacco smoking or risky alcohol consumption
- Among females online gamblers spend a larger proportion of income on gambling
