PII: S0747-5632(17)30272-8  
DOI: 10.1016/j.chb.2017.04.033  
Reference: CHB 4932  
To appear in: *Computers in Human Behavior*  
Received Date: 31 August 2016  
Revised Date: 16 March 2017  
Accepted Date: 13 April 2017

Please cite this article as: Anika Batenburg, Jos Bartels, Keeping Up Online Appearances: How Self-Disclosure on Facebook Affects Perceived Respect and Likability in the Professional Context, *Computers in Human Behavior* (2017), doi: 10.1016/j.chb.2017.04.033

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

- Integrating personal and professional contacts yields higher levels of likability than segmenting.
- Posting self-enhancing messages shows higher levels of respect than self-verifying messages.
- The best strategy is to perform 'content' online boundary management behavior.
