This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

- The study investigates adoption of cloud computing to achieve knowledge management
- Structural equation modeling was used to validate the research model
- The perceived usefulness is associated with expectations for knowledge management
- Innovativeness and training & education are associated with ease of use perceptions
