This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

- Facilitating conditions have no impact on intention to use NFC-based MP.
- Social readiness positively influences the NFC-based MP use in restaurants.
- Users consider NFC-based MP as fun when they perceive it useful.
- Attitude, security, and risk are the most influential factors in NFC-based MP usage.
