Content Tree Word Embedding for Document Representation

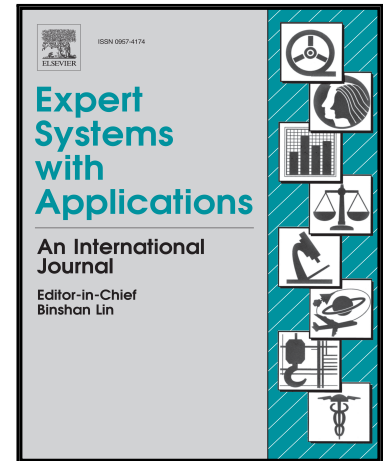

Mehran Kamkarhaghighi, Masoud Makrehchi

PII: S0957-4174(17)30559-6
DOI: [10.1016/j.eswa.2017.08.021](https://doi.org/10.1016/j.eswa.2017.08.021)
Reference: ESWA 11490

To appear in: *Expert Systems With Applications*

Received date: 27 September 2016
Revised date: 10 August 2017
Accepted date: 11 August 2017

Please cite this article as: Mehran Kamkarhaghighi, Masoud Makrehchi, Content Tree Word Embedding for Document Representation, *Expert Systems With Applications* (2017), doi: [10.1016/j.eswa.2017.08.021](https://doi.org/10.1016/j.eswa.2017.08.021)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- A new approach is proposed in order to improve two main Deep Learning word embedding models.
- Previous document representations methods are reviewed.
- For the first time, a Content Tree-based approach is used in word embedding.
- Two classification tasks are performed using the presented approach.
