Word-Sentence Co-Ranking for Automatic Extractive Text Summarization

Changjian Fang, Dejun Mu, Zhenghong Deng, Zhiang Wu

PII: S0957-4174(16)30695-9
DOI: [10.1016/j.eswa.2016.12.021](https://doi.org/10.1016/j.eswa.2016.12.021)
Reference: ESWA 11030

To appear in: *Expert Systems With Applications*

Received date: 5 March 2016
Revised date: 11 December 2016
Accepted date: 13 December 2016

Please cite this article as: Changjian Fang, Dejun Mu, Zhenghong Deng, Zhiang Wu, Word-Sentence Co-Ranking for Automatic Extractive Text Summarization, *Expert Systems With Applications* (2016), doi: [10.1016/j.eswa.2016.12.021](https://doi.org/10.1016/j.eswa.2016.12.021)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- A principled word-sentence co-ranking model called CoRank is proposed.
- The convergence of CoRank with matrix notation is proved.
- A redundancy elimination technique is presented to further improve the performance of CoRank.
