An improved multiattribute decision making method based on new score function of interval-valued intuitionistic fuzzy values and linear programming methodology

Cheng-Yi Wang , Shyi-Ming Chen

PII: S0020-0255(17)30731-4
DOI: [10.1016/j.ins.2017.05.022](https://doi.org/10.1016/j.ins.2017.05.022)
Reference: INS 12892

To appear in: *Information Sciences*

Received date: 19 March 2017
Revised date: 21 April 2017
Accepted date: 14 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**An improved multiattribute decision making method based on
new score function of interval-valued intuitionistic fuzzy values
and linear programming methodology**

Cheng-Yi Wang, Shyi-Ming Chen*
