Perceptual category learning and visual processing: An exercise in computational cognitive neuroscience

George Cantwell, Maximilian Riesenhuber, Jessica L. Roeder, F. Gregory Ashby

PII: S0893-6080(17)30048-5
DOI: <http://dx.doi.org/10.1016/j.neunet.2017.02.010>
Reference: NN 3721

To appear in: *Neural Networks*

Received date: 9 November 2016
Revised date: 19 January 2017
Accepted date: 28 February 2017

Please cite this article as: Cantwell, G., Riesenhuber, M., Roeder, J. L., & Ashby, F. G. Perceptual category learning and visual processing: An exercise in computational cognitive neuroscience. *Neural Networks* (2017), <http://dx.doi.org/10.1016/j.neunet.2017.02.010>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Perceptual Category Learning and Visual Processing: An Exercise in Computational Cognitive Neuroscience

George Cantwell¹, Maximilian Riesenhuber²,

Jessica L. Roeder¹, and F. Gregory Ashby¹
