Ying-ying Zhang received the B.E. degree in electronics from Beijing Institute of Technology, Beijing, China, and the M.S.degree in the Information Science and Technology College, Beijing Institute of Technology, Beijing, China, in 2006 and 2008, respectively.

I joined as a Faculty Member with the Physics and Electronic Engineering College, Nanyang Normal University, in 2008, where I have been a University Lecturer since 2013. My current research interests include computer vision, pattern recognition and saliency detection.

Cai Yang received the M.S in Computer from Northwestern Polytechnical University in 2006. She is currently a lecturer with the Computer and Information Technology College, Nanyang Normal University since 2008. Her current research interests include computer vision and sparse representation in image processing.

Ping Zhang received the B.S in physics from Nanyang Normal University in 1990. She is currently an advanced experimenter with the Physics and Electronic Engineering College, Nanyang Normal University since 2011. Her current research interest is compressed sensing with applications to signal analysis.
