

Accepted Manuscript

A message efficient intersection control algorithm for intelligent transportation in smart cities

Wei Ni, Weigang Wu, Keqin Li

PII: S0167-739X(16)30479-4

DOI: <http://dx.doi.org/10.1016/j.future.2016.10.033>

Reference: FUTURE 3205

To appear in: *Future Generation Computer Systems*

Received date: 15 October 2015

Revised date: 30 September 2016

Accepted date: 27 October 2016

Please cite this article as: W. Ni, W. Wu, K. Li, A message efficient intersection control algorithm for intelligent transportation in smart cities, *Future Generation Computer Systems* (2016), <http://dx.doi.org/10.1016/j.future.2016.10.033>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

- Vehicular communication based intersection control
- Distributed mutual exclusion algorithm for transportation management
- Low message cost
- formally proved algorithm correctness
