Robot Cloud: Bridging the power of robotics and cloud computing

Zhihui Du, Ligang He, Yinong Chen, Yu Xiao, Peng Gao, Tongzhou Wang

PII: S0167-739X(16)00004-2

DOI: <http://dx.doi.org/10.1016/j.future.2016.01.002>

Reference: FUTURE 2933

To appear in: *Future Generation Computer Systems*

Received date: 16 September 2015

Revised date: 31 December 2015

Accepted date: 11 January 2016

Please cite this article as: Z. Du, L. He, Y. Chen, Y. Xiao, P. Gao, T. Wang, Robot Cloud: Bridging the power of robotics and cloud computing, *Future Generation Computer Systems* (2016), <http://dx.doi.org/10.1016/j.future.2016.01.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- 1 The architecture design of a robot cloud is presented.
- 2 The simulation results show the advantage of our proposed scheduling algorithm and one big robot center.
- 3 The prototype system implementation shows the proposed idea is feasible and more such on-site services will be available in the future.
