

# Accepted Manuscript

A note on finding minimum mean cycle

Mmanu Chaturvedi, Ross M. McConnell

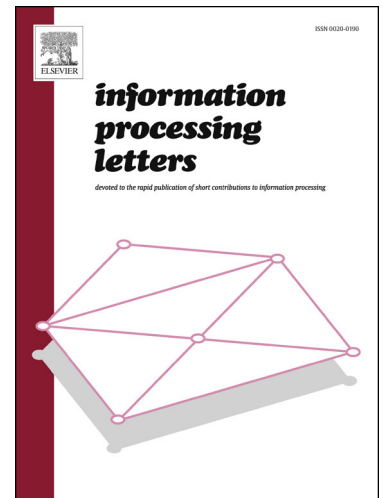

PII: S0020-0190(17)30108-4  
DOI: <http://dx.doi.org/10.1016/j.ipl.2017.06.007>  
Reference: IPL 5550

To appear in: *Information Processing Letters*

Received date: 22 August 2016  
Accepted date: 8 June 2017

Please cite this article in press as: M. Chaturvedi, R.M. McConnell, A note on finding minimum mean cycle, *Inf. Process. Lett.* (2017), <http://dx.doi.org/10.1016/j.ipl.2017.06.007>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Highlights

- Karp's algorithm for minimum mean weight of a cycle is correct, but there is an error in his algorithm to construct a cycle with that mean.
- To our knowledge, no one has pointed this out or proposed an alternative.
- We derive a simple fix using the conceptual tools he develops in his paper.
