

Accepted Manuscript

A python framework for programming autonomous robots using a declarative approach

Loris Fichera, Fabrizio Messina, Giuseppe Pappalardo, Corrado Santoro

PII: S0167-6423(17)30024-2
DOI: <http://dx.doi.org/10.1016/j.scico.2017.01.003>
Reference: SCICO 2074

To appear in: *Science of Computer Programming*

Received date: 23 February 2016
Revised date: 26 January 2017
Accepted date: 30 January 2017

Please cite this article in press as: L. Fichera et al., A python framework for programming autonomous robots using a declarative approach, *Sci. Comput. Program.* (2017), <http://dx.doi.org/10.1016/j.scico.2017.01.003>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A Python Framework for Programming Autonomous Robots using a Declarative Approach

Loris Fichera^{a,b}, Fabrizio Messina^{a,*}, Giuseppe Pappalardo^a, Corrado Santoro^a
