

Accepted Manuscript

Title: Computational study to understand the energy transfer pathways within amicyanin

Author: Ramachandran Gnanasekaran

PII: S1093-3263(17)30671-X
DOI: <https://doi.org/10.1016/j.jmgm.2017.09.023>
Reference: JMG 7041

To appear in: *Journal of Molecular Graphics and Modelling*

Received date: 28-8-2017
Revised date: 28-9-2017
Accepted date: 30-9-2017

Please cite this article as: { <https://doi.org/>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Computational Study to Understand the Energy Transfer Pathways within Amicyanin

Ramachandran Gnanasekaran^{1*}

1. Department of Chemistry, Pondicherry University, Puducherry, 605 014, India.
