Realization of current- mode biquadratic filter employing multiple output OTAs and MO-CCII

Karima Garradhi, Néjib Hassen, Thouraya Ettaghzouti, Kamel Besbes

PII: S1434-8411(17)31059-2
DOI: <http://dx.doi.org/10.1016/j.aeue.2017.08.027>
Reference: AEUE 52023

To appear in: *International Journal of Electronics and Communications*

Received Date: 30 April 2017
Revised Date: 15 July 2017
Accepted Date: 20 August 2017

Please cite this article as: K. Garradhi, N. Hassen, T. Ettaghzouti, K. Besbes, Realization of current- mode biquadratic filter employing multiple output OTAs and MO-CCII, *International Journal of Electronics and Communications* (2017), doi: <http://dx.doi.org/10.1016/j.aeue.2017.08.027>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Karima GARRADHI was born in Nabul, Tunisia, in 1988. She received the applied license. from the Faculty of Sciences of Monastir in 2011, the M.S. degree from at the same University at the Microelectronic and Instrumentation Laboratory in 2013. Actually, she is preparing the Ph.D degree. She is interested to the implementation of low voltage low power integrated circuit design.

Néjib HASSEN was born in 1961 in Moknine, Tunisia. He received the B.S. degree in EEA from the University of Aix-Marseille I, France in 1990, the M.S. degree in Electronics in 1991 and the Ph.D. degree in 1995 from the University Louis Pasteur of Strasbourg, France. From 1991 to 1996, he has worked as a researcher in CCD digital camera design. He implemented IRDS new technique radiuses CCD noise at CRN of GOA in Strasbourg. In 1995, he joined the Faculty of Sciences of Monastir as an In 1995, he joined the Faculty of Sciences of Monastir as an Assistant Professor of physics and electronics Since 1997, he has worked as researcher in mixed-signals neural networks. Currently, he is professor of microelectronics and electronics to ISIMM University of Monastir. He is focusing on the implementation low voltage - low power mixed and analog circuits

Thouraya ETTAGHZOUTI was born in Tozeur, Tunisia, in 1983. She received the B.S. degree from the Faculty of Sciences of Monastir in 2008, the M.S. degree from at the same University at the Microelectronic and
