

# Accepted Manuscript

Title: Architectural and information theoretic perspectives of physical layer intruders for direct sequence spread spectrum systems

Author: Awais Yousaf, Asim Loan, Radu F. Babiceanu, Leandros Maglaras, Onaiza Yousaf

PII: S0167-4048(17)30118-9

DOI: <http://dx.doi.org/doi: 10.1016/j.cose.2017.05.011>

Reference: COSE 1152

To appear in: *Computers & Security*

Received date: 30-1-2017

Revised date: 15-4-2017

Accepted date: 26-5-2017

Babiceanu, Leandros Maglaras, Onaiza Yousaf, Architectural and information theoretic perspectives of physical layer intruders for direct sequence spread spectrum systems, *Computers & Security* (2017), <http://dx.doi.org/doi: 10.1016/j.cose.2017.05.011>.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Architectural and Information Theoretic Perspectives of Physical Layer Intruders for Direct Sequence Spread Spectrum Systems

**Awais Yousaf** did B.Sc. and M.Sc. in Electrical Engineering from University of Engineering and Technology, Lahore, Pakistan in 2008 and 2010 respectively. He is currently enrolled in PhD at his Alma mater and serving as an Assistant Professor at Department of Electrical Engineering, The University of Lahore, Pakistan. His research interests include physical layer security, intrusion detection systems, signal processing for defense, 5th generation communication systems, performance modeling and simulation of multicore microprocessor platforms and architectures.
