Hassina NACER received her PhD degree from Bejaia University in 2010 in computer science. From 1995 to 2001, she worked in the Algerian customs. From 2001 to 2014, she was a teacher–researcher in Bejaia University. In 2015, she received her Habilitation to direct Research (HDR) in USTHB. She has taught in several universities (Bejaia, USTHB, EMP). Her research interests include Web services Technology, Web semantic, Knowledge base systems, distributed and cooperative computing, Web services security, and Cloud Computing. She published various papers in international journals.

Nabil DJEBARI received the engineering diploma in Computer Science from University of Bejaia in 2009. Actually, he is a PhD student in the Doctoral School of Cloud Computing in University of Bejaia (Algeria), from where he received the Magister degree in Computer Science (2012). He works on area of distributed systems security.

Hachem SLIMANI received the Ph.D. degree in Applied Mathematics (Operational Research & Optimization) from University of Bejaia, Algeria in 2009. In January 2015, he received his Habilitation to Direct Research (HDR) from the same university. Currently he serves as an Associate Professor in Department of Computer Science, University of Bejaia. His research interests include Multiobjective optimization, Graph theory, Game theory, Big data, Cloud computing, and applications. He refereed/published various papers for/in reputed international journals and conferences in the framework of Applied Mathematics, Operational Research, and
