This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

PRACIS: Privacy-preserving and Aggregatable Cybersecurity Information Sharing

José M. de Fuentes, Lorena González-Manzano, Juan Tapiador, and Pedro Peris-Lopez
Department of Computer Science. Universidad Carlos III de Madrid
Avda. Universidad, 30, 28911 Leganés, Madrid, Spain
{jfuentes, lgmanzan, jestevez, pperis}@inf.uc3m.es

José María de Fuentes is visiting lecturer in the Computer Science and Engineering Department at University Carlos III of Madrid, Spain. He is Computer Scientist Engineer and Ph.D. in Computer Science by the University Carlos III of Madrid. His main research interests are cybersecurity as well as security and privacy in the internet of things and ad-hoc networks. He has published several articles in international conferences and journals. He is participating in several national R+D projects.

Lorena González-Manzano is assistant professor working in the Computer Security Lab at the University Carlos III of Madrid, Spain. She is Computer Scientist Engineer and Ph.D. in Computer Science by the University Carlos III of Madrid. Her Ph.D. focuses on security and privacy in social networks. She is currently focused on Internet of Things and cloud computing security, as well as, on cybersecurity. Indeed, she has published several papers in national and international conferences and journals and she is also involved in national R+D projects.
