

## Accepted Manuscript

Stochastic Modeling for Performance and Availability Evaluation of Hybrid Storage Systems

Eric Borba, Eduardo Tavares

PII: S0164-1212(17)30185-1  
DOI: [10.1016/j.jss.2017.08.043](https://doi.org/10.1016/j.jss.2017.08.043)  
Reference: JSS 10029

To appear in: *The Journal of Systems & Software*

Received date: 8 May 2017  
Revised date: 18 August 2017  
Accepted date: 22 August 2017

Please cite this article as: Eric Borba, Eduardo Tavares, Stochastic Modeling for Performance and Availability Evaluation of Hybrid Storage Systems, *The Journal of Systems & Software* (2017), doi: [10.1016/j.jss.2017.08.043](https://doi.org/10.1016/j.jss.2017.08.043)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Performance and availability models for assessing hybrid storage systems.
- Response time, throughput and availability can be estimated using the proposed models.
- Model validation using DiskSIM.
- Experimental results indicating the practical feasibility of the proposed models.
