This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Metrics of the continuity of continuous integration proposed and discussed
- Organizational size found to correlate with CI continuity
- Evidence of correlation between continuity and organization composition discovered
- Findings discussed in the context of architectural styles and manufacturability
