This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- Study findings based on eye-tracking and user interaction monitoring
- Insights into the detailed navigation behavior of 22 developers
- An approach to automatically capture the source code elements a developer looks at
- A discussion on the value the data and the findings offer for developer support.
