A Survey of the Use of Crowdsourcing in Software Engineering

Ke Mao, Licia Capra, Mark Harman, Yue Jia

PII: S0164-1212(16)30183-2
DOI: [10.1016/j.jss.2016.09.015](https://doi.org/10.1016/j.jss.2016.09.015)
Reference: JSS 9847

To appear in: *The Journal of Systems & Software*

Received date: 9 January 2016
Revised date: 11 September 2016
Accepted date: 13 September 2016

Please cite this article as: Ke Mao, Licia Capra, Mark Harman, Yue Jia, A Survey of the Use of Crowdsourcing in Software Engineering, *The Journal of Systems & Software* (2016), doi: [10.1016/j.jss.2016.09.015](https://doi.org/10.1016/j.jss.2016.09.015)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- A comprehensive survey of literature on crowdsourcing for software engineering.
- An analysis and identification of key milestones in the development of this area.
- Identification of open challenges and future work for this research agenda.
