This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Precompetitive anonymised data sharing between pharmaceutical companies
- Widely used database successfully solving problem of precompetitive data sharing
- Several strategies used to help anonymise data e.g. rounding values, random names
- Allows users to communicate with data owners anonymously via a messaging system
- Flexible design so that parts of the dataset can be hidden temporarily if required
