This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Classical approaches risk-neutral, but risk-aversion often encountered in practice
- Concise and exhaustive description of risk-averse and robust approaches
- Exhaustive survey of capacity control and dynamic pricing for risk-averse sellers
- Classification of literature
- Possible avenues for future research structured and discussed
