This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- The role of stakeholders in organizational decision making is gaining more and more attention
- We discuss three topics from Stakeholder Theory directly relevant to Operational Research (OR)
- We review 144 articles on 'stakeholders' in leading OR journals
- Content analysis of the 144 articles reveals four traditions of working with stakeholders
- Theory and the four traditions reveal several assumptions on working with stakeholders in OR
