Reference: EOR 14210

To appear in: *European Journal of Operational Research*

Received date: 17 July 2015  
Revised date: 17 January 2017  
Accepted date: 18 January 2017

Please cite this article as: Tolga Aydinliyim , Michael S. Pangburn , Elliot Rabinovich , Inventory Disclosure in Online Retailing, *European Journal of Operational Research* (2017), doi: [10.1016/j.ejor.2017.01.029](https://doi.org/10.1016/j.ejor.2017.01.029)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

### Highlights

- Online retailers show varied inventory cues: “in stock” versus the exact level.
- We jointly consider inventory disclosure and pricing under stockout risk.
- We show selective disclosure using a product-specific stock threshold is optimal.
