THE DENOMINATOR RULE FOR SHARE-WEIGHTING AGGREGATION

Rolf Färe , Giannis Karagiannis

PII: S0377-2217(17)30113-3
DOI: [10.1016/j.ejor.2017.02.008](https://doi.org/10.1016/j.ejor.2017.02.008)
Reference: EOR 14244

To appear in: *European Journal of Operational Research*

Received date: 10 April 2014
Revised date: 25 January 2017
Accepted date: 8 February 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- The denominator rule is a necessary and sufficient condition for consistent aggregation of ratio-type performance measures
- The denominator rule applies to all radial efficiency measures
- The denominator rule applies to the aggregation of capacity utilization indices
