A unified approach to uncertain optimization

Kathrin Klamroth, Elisabeth Köbis, Anita Schöbel, Christiane Tammer

PII: S0377-2217(16)31079-7
DOI: [10.1016/j.ejor.2016.12.045](https://doi.org/10.1016/j.ejor.2016.12.045)
Reference: EOR 14176

To appear in: *European Journal of Operational Research*

Received date: 16 November 2015
Revised date: 14 October 2016
Accepted date: 29 December 2016

Please cite this article as: Kathrin Klamroth, Elisabeth Köbis, Anita Schöbel, Christiane Tammer, A unified approach to uncertain optimization, *European Journal of Operational Research* (2016), doi: [10.1016/j.ejor.2016.12.045](https://doi.org/10.1016/j.ejor.2016.12.045)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Unifying framework for dealing with different models in uncertain optimization
- Characterization based on set optimization, vector optimization, and scalarization
- Robust optimization with infinite uncertainty sets
- New modeling approaches for uncertainties in optimization problems
