This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Investigated collecting competition between the manufacturer and remanufacturer.
- Incorporated manufacturing/remanufacturing and technology licensing simultaneously.
- Examined the optimal decisions in a decentralized decision-making system.
- A profit sharing mechanism is designed to coordinate the two-echelon CLSC.
