High-frequency power within the QRS complex in ischemic cardiomyopathy patients with ventricular arrhythmias: Insights from a clinical study and computer simulation of cardiac fibrous tissue

Takeshi Tsutsumi, Yoshiwo Okamoto, Nami Takano, Daisuke Wakatsuki, Takanobu Tohmaru, Toshiaki Nakajima

PII: S0010-4825(17)30144-0

DOI: [10.1016/j.compbiomed.2017.05.022](https://doi.org/10.1016/j.compbiomed.2017.05.022)

Reference: CBM 2677

To appear in: *Computers in Biology and Medicine*

Received Date: 13 October 2016

Revised Date: 18 May 2017

Accepted Date: 19 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**High-frequency power within the QRS complex in ischemic cardiomyopathy
patients with ventricular arrhythmias: insights from a clinical study and computer
simulation of cardiac fibrous tissue.**
