Development of simulation optimization methods for solving patient referral problems in the hospital-collaboration environment

Ping-Shun Chen, Ming-Han Lin

PII: S1532-0464(17)30183-1
DOI: <http://dx.doi.org/10.1016/j.jbi.2017.08.004>
Reference: YJBIN 2840

To appear in: *Journal of Biomedical Informatics*

Received Date: 16 February 2017
Revised Date: 3 July 2017
Accepted Date: 8 August 2017

Please cite this article as: Chen, P-S., Lin, M-H., Development of simulation optimization methods for solving patient referral problems in the hospital-collaboration environment, *Journal of Biomedical Informatics* (2017), doi: <http://dx.doi.org/10.1016/j.jbi.2017.08.004>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Development of simulation optimization methods for solving patient referral
problems in the hospital-collaboration environment**
