A Reductionist Approach to Extract Robust Molecular Markers from Microarray Data Series -Isolating Markers to Track Osseointegration

Anwasha Barik, Satarupa Banerjee, Santanu Dhara, Nishant Chakravorty

PII: S1532-0464(17)30054-0
DOI: <http://dx.doi.org/10.1016/j.jbi.2017.03.005>
Reference: YJBIN 2739

To appear in: *Journal of Biomedical Informatics*

Received Date: 14 October 2016
Revised Date: 3 February 2017
Accepted Date: 10 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A Reductionist Approach to Extract Robust Molecular Markers from Microarray Data Series -
Isolating Markers to Track Osseointegration
