This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Using Ontology-based Semantic Similarity to Facilitate the Article Screening Process for Systematic Reviews

Authors:

Xiaonan Ji, MS^{1,2}, Alan Ritter, PhD², Po-Yin Yen, RN, PhD¹

Affiliations:

¹Department of Biomedical Informatics, ²Department of Computer Science and Engineering
The Ohio State University, Columbus, OH, USA

Corresponding author:
