

Accepted Manuscript

Adaptive and iterative methods for simulations of nanopores with the PNP-Stokes equations

Gregor Mitscha-Baude, Andreas Buttinger-Kreuzhuber, Gerhard Tulzer, Clemens Heitzinger

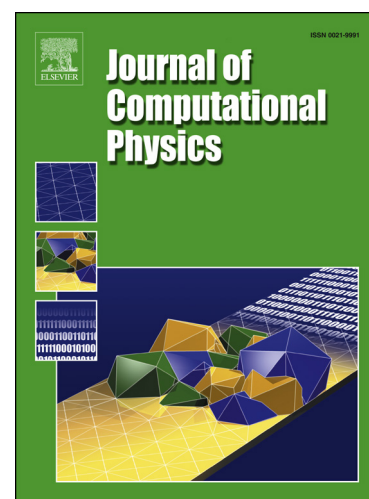

PII: S0021-9991(17)30187-0
DOI: <http://dx.doi.org/10.1016/j.jcp.2017.02.072>
Reference: YJCPH 7204

To appear in: *Journal of Computational Physics*

Received date: 16 August 2016
Revised date: 31 January 2017
Accepted date: 28 February 2017

Please cite this article in press as: G. Mitscha-Baude et al., Adaptive and iterative methods for simulations of nanopores with the PNP-Stokes equations, *J. Comput. Phys.* (2017), <http://dx.doi.org/10.1016/j.jcp.2017.02.072>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

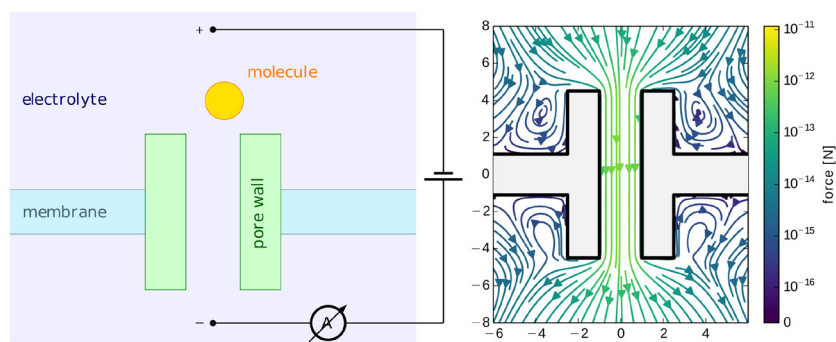

Graphical abstract

Adaptive and iterative methods for simulations of nanopores with the PNP-Stokes equations

Journal of Computational Physics ••••, •••, •••
