This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

**Highlights**

- Extracting knowledge of web users' interests, navigational actions and preferences from web and biometric data
- Biometric tools for measuring actual responses to the stimuli presented via websites
- Survey of Biometric information fusion applied to the web usage mining field.
