

Accepted Manuscript

A System-of-Systems Perspective for Information Fusion System Design and Evaluation

Ali K. Raz, C. Robert Kenley, Daniel A. DeLaurentis

PII: S1566-2535(16)30085-9
DOI: [10.1016/j.inffus.2016.10.002](https://doi.org/10.1016/j.inffus.2016.10.002)
Reference: INFFUS 809

To appear in: *Information Fusion*

Received date: 25 November 2015
Revised date: 5 October 2016
Accepted date: 11 October 2016

Please cite this article as: Ali K. Raz, C. Robert Kenley, Daniel A. DeLaurentis, A System-of-Systems Perspective for Information Fusion System Design and Evaluation, *Information Fusion* (2016), doi: [10.1016/j.inffus.2016.10.002](https://doi.org/10.1016/j.inffus.2016.10.002)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- System-of-Systems architecture development for integrating LLIF and HLIF functions
- Functional, physical, and allocated architecture representations with MBSE tools
- Information fusion functional and physical dynamics modeling via agent-based models
- Design of Experiments for information fusion system design space characterization
